BÜFA Elements

The Elements of Purity

high valuable

BÜFA Elements is a modular detergent system that can be used for any type of laundry and stains. Thanks to the high-quality and perfectly matching products, you are guaranteed to get an optimal washing result and conserve the value of the laundry.

flexible

The products can be combined individually. Depending on your needs, you can dose individual cleaning agents and additives to the required quantity for your process.

price value

We calculate your detergent costs precisely per kilo of laundry. This way you only pay for as much detergent as you really need

BÜFA Ξlәments - The modular detergent system for professional laundries

BÜFA Ξlәments is a detergent system based on the modular principle. Use the individual modules precisely according to your needs. Depending on your needs, you can dose individual detergents and additives to the amount required for your process. In this way, you have the possibility to achieve an optimal washing result with as few chemicals as possible - used precisely. The modular system consists of the following products:

BÜFA Ξlәment **A** Alkali-Booster
Fiber swelling & pH booster

BÜFA Ξlәment **P** Polymer Komponente
Dye transfer inhibitor, anti-greying agent, keeps textile looks new for longer, removes pigment

BÜFA Ξlәment **T** Tensid Komponente
Wetting, dispersing and emulsifying agent, independent of pH

BÜFA Ξlәment **O** Optischer Aufheller
Perfectly formulated optical brightener, carries the brightener fast and efficient to the textile, independent from pH

BÜFA Ξlәment **E** Enzym Komponente
Long-time stable enzyme cocktail, removes contaminations of protein, starch, pectin, natural fat & oil

BÜFA Ξlәment **K** Komplexbildner
Improves water quality, stabilized bleaching agent & prevent redepositions on fabrics

BÜFA Ξlәment **D** Desinfektion*
Flexible bleaching component (H2O2, PAP, PAA)

BÜFA Ξlәment **N** Neutralisations-mittel
Balanced mixture of acids for fast pH neutralization (core alkalinity in fibers), excellent suitable for ironer

alkaline pH neutral acidic
